TECHNICAL SKILLS

Data & Analytics

- SQL
- T-SQL
- Power BI
- DAX
- Excel

Data Engineering

- ETL
- Data Modeling
- Star Schema
- Data Warehouse

Analysis

- EDA
- Data Cleaning
- Visualization
- Reporting

Currently Learning

- Python
- Azure
- AWS

SOFT SKILLS

- Communication
- Problem Solving
- Client Management
- Negotiation
- Stakeholder Mgmt
- Self-Motivated

LANGUAGES

- Arabic
- Native
- English
- Professional

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with a strong foundation in SQL, Power BI, and Excel, combined with 4 years of cross-functional business experience in data-rich environments. Skilled in data extraction, modeling, and visualization to drive actionable insights and support strategic decision-making.

PROJECTS

Samsung Global Performance & Supply Chain Analytics

Power BI · DAX · Constellation Schema

- Built an enterprise Power BI dashboard diagnosing 4 integrated domains (procurement, manufacturing, logistics, omnichannel sales), delivering visibility into \$176.95M net revenue and 27.4% net margin.
- Architected a multi-fact constellation schema (5 dims, 5 facts) with 30+ centralized DAX measures, isolating 573 delayed shipments and 459 value-at-risk inventory SKUs.

Telecom Customer Churn & Revenue Loss Dashboard

Power BI · DAX · Data Modeling

- Built an executive Power BI dashboard analyzing subscriber churn across 7,043 accounts and isolating \$2.86M in revenue loss, identifying month-to-month contracts (42.7% churn) as driving 67% of total loss.
- Proved bundling 4+ add-ons slashes churn from 50.3% to 5.3% using advanced DAX measures; designed an interactive pop-out slicer panel for self-service stakeholder reporting.

SQL Data Warehouse — End-to-End ETL & Data Modeling

SQL Server · T-SQL · ETL · Data Modeling

- Architected a full SQL data warehouse using star schema methodology with fact and dimension tables, developing automated ETL pipelines to clean and transform raw data for BI reporting.
- Built reusable reporting views and standardized KPI calculations using advanced T-SQL window functions (LAG, running totals, moving averages) to ensure enterprise data integrity.

Advanced Exploratory Data Analysis & Business Reporting

SQL Server · T-SQL · Statistical Analysis

- Conducted structured EDA on large relational datasets using complex T-SQL queries (CTEs, subqueries, aggregations) to uncover revenue trends, anomalies, and outliers.
- Translated statistical patterns into actionable executive reporting summaries, establishing standard data cleaning protocols and KPI calculation benchmarks.

Executive Sales Performance Dashboards

Excel · Power Pivot · Power Query · DAX

- Delivered dynamic Excel sales performance dashboards tracking \$14.54M in revenue across 28.7K units using advanced pivot tables, multi-parameter slicers, and regional trend tracking.
- Constructed an analytical data model in Power Pivot with star schema relationships, modeling \$126.29M in profit at 41.1% margin to evaluate product line and channel profitability.

PROFESSIONAL EXPERIENCE

Freelance Real Estate Data Analyst

2025 – 2026

Self-Employed · Cairo, Egypt

- Analyzed property price and market trend data across Cairo districts, producing structured advisory reports and insights
- Built Excel KPI dashboards tracking conversion rates, pipeline status, revenue targets, and transaction activity
- Conducted comparative market analysis using historical price trends to provide data-backed valuation benchmarks
- Prepared performance summaries and reporting cadence to support data-informed decision-making

Real Estate Agent — Resale Department

2023 – 2025

Smart Step · Cairo, Egypt

- Cleaned, organized, and maintained property inventory data in Excel spreadsheets, ensuring data accuracy across 200+ listings

- Built Excel-based KPI dashboards tracking sales performance, conversion rates, average deal value, and monthly revenue targets
- Analyzed property inventory data to identify pricing trends, high-demand areas, and slow-moving listings for management decision-making
- Conducted comparative market analysis (CMA) using historical sales data to determine fair property valuations
- Prepared weekly and monthly performance reports summarizing sales pipeline, client acquisition metrics, and market insights
- Negotiated deals between buyers and sellers, leveraging data-driven pricing recommendations

Real Estate Agent — Primary Sales

2022 – 2023

MLS · Cairo, Egypt

- Managed and sold primary residential units, advising clients using market data and pricing analysis
- Tracked property availability, pricing trends, and sales performance across multiple projects using Excel
- Created weekly sales reports summarizing pipeline status, conversion rates, and revenue targets
- Built and maintained a client database, organizing lead sources and follow-up schedules

EDUCATION

Bachelor of Commerce

2018 – 2022

Helwan University — Cairo, Egypt
