

Mohamed Al Nady

Data Analyst

Cairo, Egypt | +20 155 517 3721 | mohamednady0@outlook.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with a strong foundation in SQL, Power BI, and Excel, combined with 4 years of client-facing business experience. Skilled in data extraction, transformation, visualization, and reporting. Built end-to-end data solutions including a SQL data warehouse with ETL pipelines and interactive Power BI dashboards analyzing 1,470+ records. Passionate about turning raw data into actionable business insights.

TECHNICAL SKILLS

Data Analysis: SQL, T-SQL, Microsoft Excel (Pivot Tables, VLOOKUP, Advanced Formulas), Data Cleaning, EDA, Statistical Analysis

Visualization & BI: Power BI, DAX, Interactive Dashboards, KPI Design, Data Storytelling, Business Reporting

Data Engineering: ETL (Extract, Transform, Load), Data Modeling, Star Schema, Data Warehouse Design

Learning: Python (Pandas, Matplotlib), Microsoft Azure, AWS

PROJECTS

IBM HR Analytics Dashboard

Power BI · DAX · Excel

- Built a 4-page interactive Power BI dashboard analyzing employee attrition drivers across 1,470 records and 35 attributes
- Designed KPI cards for attrition rate (16.1%), retention rate (83.9%), satisfaction scores, and income analysis
- Identified key attrition drivers: overtime workers leave at 30.5%, employees under 25 at 39.18%, most quit within first 2 years
- Created DAX measures for calculated metrics, dynamic slicers for department/role/age filtering, and drill-down capabilities
- Delivered actionable retention recommendations across Overview, Attrition Deep Dive, Workforce Profile, and Compensation pages

Executive Sales Performance Dashboard

Excel · Slicers · Pivot Tables

- Developed an interactive sales reporting dashboard in Excel tracking \$14.54M in revenue across 28.7K units sold
- Designed dynamic regional slicers and category filters, identifying peak seasonal sales of \$885.4K in December
- Created charts mapping regional performance (West at \$5.23M) and visual gender sales contribution metrics (64.6% Female)

AdventureWorks Sales & Profit Dashboard

Excel · Power Pivot · DAX

- Built an end-to-end sales tracking workbook in Excel using Power Query to clean and ingest transaction databases
- Modeled dimensional relationships via a star schema and wrote DAX measures to compute a 41.1% profit margin (\$126.29M profit)
- Analyzed product profitability, highlighting Mountain-200 Black series sales (\$5.2M profit) as top revenue driver

SQL Data Warehouse — End-to-End ETL & Data Modeling

SQL Server · T-SQL

- Designed and implemented a full data warehouse solution using star schema methodology with fact and dimension tables
- Developed ETL pipelines to extract, transform, and load raw data into analytics-ready tables
- Optimized schema for efficient querying, serving as the foundation for business intelligence reporting

Exploratory Data Analysis (EDA) Using SQL

SQL Server · T-SQL

- Conducted comprehensive EDA using advanced SQL: aggregations, GROUP BY, HAVING, window functions (RANK, ROW_NUMBER, LAG/LEAD), CTEs
- Uncovered hidden trends, patterns, and anomalies across datasets, delivering actionable business recommendations

[github.com/Nady-07/EDA_Project](#)

Advanced Exploratory Data Analysis & Reporting

SQL Server · T-SQL

- Analyzed yearly and monthly sales trends using cumulative totals, running averages, and time-based comparisons
- Evaluated product performance against prior-year results and annual averages using LAG and window functions
- Built reusable customer and product reporting views with segmentation, recency, and lifecycle metrics
