

Mohamed Al Nady

Junior Data Analyst

Cairo, Egypt | +20 155 517 3721 | mohamednady0@outlook.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Junior Data Analyst skilled in SQL, Power BI, Excel, ETL, data modeling, dashboard design, and business reporting. Built end-to-end analytics projects including SQL data warehouses, exploratory data analysis, reusable reporting views, and interactive dashboards. Combines technical analytics skills with 4 years of client-facing business experience in sales, reporting, market analysis, and stakeholder communication.

TECHNICAL SKILLS

Data Analysis: SQL, T-SQL, Excel, Pivot Tables, Power Query, Power Pivot, Data Cleaning, EDA, Statistical Analysis

Business Intelligence: Power BI, DAX, Interactive Dashboards, KPI Design, Data Storytelling, Business Reporting

Data Engineering: ETL, Data Modeling, Star Schema, Fact Tables, Dimension Tables, Data Warehouse Design

Tools: SQL Server, Power BI, Microsoft Excel, GitHub, Documentation | Currently Learning: Python, Azure Fundamentals

PROJECTS

Executive Sales Performance Dashboard

Excel · Slicers · Pivot Tables

- Developed an interactive sales reporting dashboard in Excel tracking \$14.54M in revenue across 28.7K units sold
- Used slicers, pivot tables, and charts to identify revenue trends, peak sales months, and regional performance

AdventureWorks Sales & Profit Dashboard

Excel · Power Pivot · DAX

- Built an Excel-based sales and profit dashboard using Power Query for data cleaning and preparation
- Modeled relationships using a star schema and calculated profit margin, revenue, and product performance
- Analyzed product profitability and identified top-performing product categories and sales drivers

SQL Data Warehouse — End-to-End ETL & Data Modeling

SQL Server · T-SQL

- Designed a complete SQL data warehouse using star schema methodology with fact and dimension tables
- Built ETL pipelines to extract, transform, and load raw data into analytics-ready tables
- Structured the model to support efficient querying, reporting, and business intelligence analysis

github.com/Nady-07/SQL_Data_Warehouse_Project

Advanced Exploratory Data Analysis & Reporting

SQL Server · T-SQL

- Analyzed yearly and monthly sales trends using cumulative totals, running averages, and time-based comparisons
- Evaluated product performance against prior-year results and annual averages using LAG and window functions
- Built reusable customer and product reporting views with segmentation, recency, and lifecycle metrics

github.com/Nady-07/Advanced_EDA_Project

IBM HR Analytics Dashboard

Power BI · DAX · Excel

- Built a 4-page interactive Power BI dashboard analyzing employee attrition drivers across 1,470 records and 35 attributes
- Designed KPI cards for attrition rate, retention rate, satisfaction, income, overtime, and department analysis
- Identified key attrition drivers including overtime, age group, marital status, job role, and tenure

EDUCATION

Bachelor of Commerce

Helwan University — Cairo, Egypt

2018 – 2022

CERTIFICATIONS

Data Analysis Diploma

EraaSoft Academy · Apr 2026

Modern Data Warehouse — Data Engineering

Udemy · Jun 2026

Complete SQL Bootcamp (30 Hours)

Udemy · 2026

PROFESSIONAL EXPERIENCE

Freelance Real Estate Agent — Resale

2025 – 2026

Self-Employed · Cairo, Egypt

- Built an Excel client tracking system to monitor leads, follow-ups, closed transactions, and client status
- Analyzed property price trends across Cairo districts to support client buying and selling decisions
- Prepared performance summaries for monthly activity, revenue, and pipeline follow-up

Real Estate Agent — Resale Department

2023 – 2025

Smart Step · Cairo, Egypt

- Maintained and organized property inventory data in Excel, improving accuracy across 200+ listings
- Built Excel-based KPI reports to track sales performance, conversion rates, revenue targets, and active inventory
- Analyzed property inventory and pricing trends to identify high-demand areas and slow-moving listings

Real Estate Agent — Primary Sales

2022 – 2023

MLS · Cairo, Egypt

- Tracked property availability, pricing, sales performance, and client pipeline activity using Excel
- Created weekly sales summaries covering pipeline status, conversion rates, and revenue targets
